Subject: Gus Alex and other files

I checked with Luanne about Gus Alex's Elsure files and she said that he never had elsure files. Alex had June mail which was processed in the main files so the file should be complete. Lake Ponchartrain EBF 57 was handled in the main file so it should be complete. Buffalino's June mail was processed in the main files. Luanne said they will provide the elsure later. I did not turn in a page count this week because I started several files this week but hadn't started negotiations. I started Sam Paxton, Benjamin Binion, and Weiner. This week Joe and I started negotiating the Lanz brothers and Dave and I started Sturgis. Both files are going well. Beyond that everything over at the FBI is good. I went to their FOIPA Follies and got an inside look into FBI humor.
