Subject: Church Committee Records

CALL REPORT: PUBLICDocument's Author: Ron Haron/ARRB Date Created: 12/15/97 The Players Who initiated the call? Review Board's representative in the call: Ron HaronResearch Community's representative in the call: Jim JohnstonDescription of the Call Date: 12/15/97Subject: Church Committee RecordsSummary of the Call:Jim Johnston, who worked on the Church Committee's JFK assassination report, today called me at the suggestion of Steve Tilley. Mr. Johnston was at the National Archives today reviewing the Church Committee records in the JFK Collection. He told Mr. Tilley (and later me) that the Hart Schweiker materials do not appear to be among the Church Committe records in the JFK Collection. He thus provided further confirmation for our assessment that major records from the Hart-Schweiker Subcommittee, which relate directly to the assassination of JFK, have not yet been identified under the JFK Act. Mr. Johnston identified some of the items that should be in the JFK Collection: (1) Roselli's 1976 testimony (this has been referred to the FBI); (2) the testimony of the CIA Case Officer who dealt with AM/LASH (we have requested this from the Senate Intelligence Committee); (3) transcript of an executive session in December 1975/early 1976 in which the FBI briefed the Committee; and (4) transcript of the May 1976 executive session in which the Committee discussed the proposed JFK report. Mr. Johnston stated that he remembered the Hart-Schweiker files being separate from the remainder of the Church Committee files. Mr. Johnston was also told by someone that the Hart Schweiker materials were turned over to the HSCA (we should therefore doublecheck to see if any of the Church Committee transcripts are among the HSCA numbered files). Mr. Johnston said he would contact another person who worked on the Church Committee to see if he can obtain further information regarding the disposition of the Hart-Schweiker materials. Mr. Johnston said he would call me back.Don't forget to compose individual Action Item documents for any action items that resulted from the call!
