**Subject:** Sixth Floor

Attorney Client communication. We need to be able to show DOJ that either the WC or the HSCA had access to the original medical materials in order to help convince them to support us in getting these records from the Sixth Floor. Our question is not whether the WC or HSCA investigated these issues, but whether they had access to the original materials. (This is the same issue that we resolved successfully with the Z film.) Doug -- can you see what you can find and give it to Ron to integrate into our letter. I will work on it on Monday. I would like to hand deliver it by Monday afternoon. For example, HSCA vol. 7 p. 281 refers to Dr. Chase examining the "Connally X-rays" -- but it doesn't say whether they are originals or copies. This reference is helpful -- but it is not a slam dunk. See also vol. 7 pp. 147 ff. For example, the NARA Inventory of the WC Records has sections on the Tippit and Oswald autopsies. Any evidence there? Are there any letters from the WC to Parkland saying that they are returning the originals to Texas? This kind of info is what we need. I would guess that the HSCA saw the Connally originals -- but not Oswald or Ruby.
