Subject: Travel Notification Program - Update 3/17/98

You may want to doublecheck the notice that I forwarded to you yesterday regarding reimbursement to see if it is one of these old messages that the note below refers to. Apparently, when the server was corrupted on the 20th of February, the system began to queue (save) the messages, rather than sending them out. When the server was rebuilt, all of the messages (about 1,900 in all) were released. We apologize for any inconvenience this may cause you. Anita Phetteplace 6BCEP
