Subject: Harry Dean

While reviewing the files provided to us by HERU in response to our additional request #50, Harry Dean, I came across a Chicago file number that may be of interest. File CG 62-109217 appears in Headquarters file 105-127490 which details Dean's allegations of being an FBI informant. Harry Dean claims he was an FBI informant on the FPCC in Chicago. The Chicago file may provide information on Dean's activities in Chicago. In addition do you think we should request the FBI to search Chicago files for Harry Dean. Our additional request asked them to search Headquarters and Los Angeles files. Requesting Chicago files may provide documents related to his claim of being an FBI informant in Chicago. Let me know what you think about requesting Chicago files and if there is anything I need to do such as making a copy of the document containing the CG file number.
