Subject: Experts Conference Arrangements

Steve Tilley left a message for Eileen and she forwarded it on to me. I called and left a message on Steve's voice mail that we had been waiting to hear from all those we had invited to participate so that we would know what kind of setup we needed, etc., and that we had heard from the last one only yesterday afternoon. I said that Michelle was out of the office today, that she has a copy of the one-page instruction memo to which he refers, and that Michelle would be in the office tomorrow so he could expect to hear something from us on Friday.
