This morning I spoke with Mr. Barr McClellan of Houston (713-355-3273), an "independent researcher." He wanted to know if tomorrow's open meeting was to finalize the Final Report. I said that it was a preliminary discussion. He said that his "group" was now preparing to send their work to the board and it should be ready to send in about a week. He said it involves "fingerprint evidence." He asked when we would publish and I told him our Final Report would probably go to the public as we close down.
