**Subject:** Senate Internal Security Subcommittee (Eastland Committee)

**Body:** FYI only. I know you and Matt (and maybe me, too, though I don't even remember!) went through the Subcommittee's index. The FPCC stuff I looked at occasionally referenced SISS testimony by various FPCC figures. I took down the citations, in case you or Matt have any interest in checking to see if this is new/additional from what the two of you/we already looked at. Of course, since we're not processing the vast bulk of the FPCC stuff under the Act in any case, there's no reason why any additional testimonies would necessarily need to be processed. But they might be worth a check.4/30/60 Carleton Beals5/5/60 (Executive Session?)
