**Subject:** Re: HSCA docs needing entry in Consent DB  
This exchange happened a while back. There are currently still no RIFs in the HSCA & Church database past 180-10147-10285. Will we be getting the disks for the higher RIF numbers or are we just going to leave them RIFless in the database?

Ben, are these documents that did not have RIF numbers before, and Matt and Kris just recently assigned them?
