Subject: IRS

I just received the attached message from Debra Conway. I have not reviewed it. Please see if it contains any additional useful leads.To: jeremy_gunn @ jfk-arrb.govcc: (bcc: Jeremy Gunn/ARRB)From: Debra Conway <debra @ jfklancer.com> @ INTERNET @ INTERLIANT Date: 06/10/98 07:00:32 AM GMTSubject: For your informationSubject: Oswald's Supposed 1964 Employer ID Number [repost] Date: 10 Jun 1998 05:50:00 -0700 From: jmcadams@primenet.com (John McAdams) Organization: PrimeNet Newsgroups: alt.assassination.jfk, alt.conspiracy.jfkThe following was sent to me by an anonymous e-mail correspondent.<Quote on>-----
-----John Armstrong believes that some of LHO's W-2 forms were forged by the FBI because the IRS said the employer ID numbers were issued in 1964.Below are some quotes from IRS annual reports which may offer an inkling of an explanation. Basically, January 1964 is when the Southwest IRS region, of which La. was then a part, began using the "master file." My guess then is that any pre-1964 account which was still active was added to the master file in January, 1964 and that's why an IRS check today might make seem that the id number was "issued" in 1964. The catalog number for these reports was T22.1.Commissioner of Internal Revenue 1964 Annual Report for the fiscal year ended June 30, 1964-p.xxi-[This is a map of the IRS regions and districts. It shows that the Louisiana district was in the Southwest Region]p. 12Effective January 1, 1964, as planned, two more regions began processing returns under the master file concept.With new service centers located at Austin, Tex., and Cincinnati, Ohio, serving the Southwest and Central regions, respectively. the expansion of the Business Master File was accomplished without major problems. At the end of the [fiscal] year, the Business Master File contained over 2.3 million tax-payer entities, or accounts, and increase of 95 percent since July 1, 1963.-Commissioner of Internal Revenue 1961 Annual Report for the fiscal year ended June 30, 1961-p.24-The National Computer Center at Martinsburg, W. Va., due for completion in the fall of 1961, will be the "heart" of the ADP [Automatic Data Processing] system. When the system is fully implemented nationwide, the center will maintain on magnetic tape, a master file of some 75 million tax accounts of individual and business taxpayers."<Quote off>-----John JFK Lancer Productions & Publications "Serving the research community, educating a new generation."
