Subject: Chief Counsel/Ex. Director's lament

J.L. Rankin to Wesley Liebler (late in the Warren Commission day): "At this stage we are supposed to be closing doors, not opening them." But thirty-five years on, History is with that bearded Liebler guy! Along these lines, as I read all this hearing/report material from the various House and Senate committees that reviewed the legislation that became the JFK Act, it occurs to me to wonder whether they have records regarding their hearings that do not appear in their published reports. Maybe not. Should we ask? This would include the Senate Governmental Affairs Committee, the House Judiciary Committee and the House Gov. Ops Committee (now the House Government Oversight and Reform Committee --- Burton?). P.S. Kevin -- do you think, if I asked him to, that Jeremy would ask Jack to ask the Board to ask the relevant House and Senate committees to ask the Congress to extend the life of our agency so I can finish my draft of Chapter 1??
