**Subject:** Another question for the in-house expert  
The Deed of Gift of the autopsy material in 10/66 was prompted mainly by an actual statute Congress had passed relative to assassination evidence, was it not, which had an 11/1 deadline? And perhaps by AG Katzenbach weighing in w/the Kennedy family to the effect that the statute probably covered the photos and x-rays? Can you confirm this and give me a citation on the statute? I don't seem to have it in any of the stuff here.
