**Subject:** Re: Military RIFs 11-12-97 Database  
This is Overtaken by Events ("OBE")---don't do it now. No need, since we found the records we were searching for anyway.To: Douglas Horne/ARRBcc: From: Jim Goslee/ARRBDate: 07/17/98 02:51:35 PMSubject: Re: Military RIFs 11-12-97 DatabaseDoug, The military RIF data base has not been indexed because RIFs are still being created on the disks. Chet did not want to repeat his work by having to go back and reinstall all of the military records disks. The other problem with indexing stems from the problems with the IRR disks. Indexing the database would be nice, but at this stage, it might not be practical. Chet would have to do this and it is up to him. My concern is that if we add disks with RIFs that have not been finalized that we will create more problems than we solve.
