**Subject:** Church Committee Review

Please plan on our going over to the National Archives downtown at around 9:30 a.m. Monday morning to commence the review of original Church Committee materials (I have a call into Jim Wolfe at the Senate Intelligence Committee to re-confirm). I would like us to keep notes of what we review and designate so bring a note pad and post-its. After this review is complete, I envision sending a letter to the Senate Intelligence Committee confirming what boxes we reviewed and identifying the materials we selected. I hope to prepare by Monday morning a master list of Church Committee transcripts that have, to date, been provided by the SSCI so that we can quickly identify any additional testimony that should be processed under the JFK Act. Obviously, we'll talk more Monday morning but let me know if you have any questions.
