Subject: Microfilm review
Please when you have a chance would you look through a redwell of materials I printed from the roll of microfilm? Il eft it in the SCIF due to classification markings, but I just need you to verify that everything I printed is AR. Anything you don't agree with, just set aside in another pile nad let m e know. Also, let me know when you're ready to look at it, and I 'llshow you where it is. thanks a ton, Cathy
