AMSubject: NumbersAs requested, the following is an estimate of where we stand with LBJ and JFK records that ARRB has been involved in processing, does not include other records for which RIFs were generated.LBJ Library301 consent releases, 154 of which were sent to NARA17 documents opened in part and sent to NARA13 documents passed through referral process, expected to be open in part, but not yet entered into fast trackTOTAL COMPLETED: 33130-40 documents still on referral: - roughly half of these were referred to NSA, but since I can't look at them, I don't know what the status of those is or if they need to be referred to anybody else. I'm leaving that up to Michelle. - The other half is at CIA and while Barry was able to track down 4, the remaining 15 or so will probably have to be re-referred because CIA has lost track of them. These records were referred to CIA in early January are are mainly the leftover MR cases that we offered to assist with.) - Misc. strays: 1 at JCS; 2 to be referred to USSS; 1 GSA JFK Library (None has been sent to NARA yet but will be after this meeting)53 Consent releases25 records open in part23 Dillon Committee TOTAL COMPLETED: 1014 oustanding on referral
