**Subject:** Request for Files

To: Ron Haron/ARRB, Kevin Tiernan/ARRBcc: Jeremy Gunn/ARRB (bcc: Non-Record/ARRB)From: Irene Marr/ARRB Date: 07/16/97 12:27:47 PMSubject: Request for FilesI have been assigned Marita Lorenz as one of my J-Track projects. As you probably know, she is one of Castro's former mistresses who was allegedly part of one of the early assassination attempts on Castro. Her mission failed because the poisoned pills she was supposed to slip to el jefe dissolved in the jar of cold cream that apparently was being used as the smuggling container. When the former HSCA investigators were here back in the fall they suggested Lorenz as another lead to pursue. We would like to request the INS and DEA for any files on her. I understand that Ron is in charge of INS records and Kevin is in charge of DEA. Unless that is no longer the case, could you each make the appropriate inquiries for Lorenz's file?If you require additional information, let me know.Thank you.
