**Subject:** LBJ Library  
To: David Marwell/ARRBcc: Jeremy Gunn/ARRB (bcc: Non-Record/ARRB)From: Irene Marr/ARRB Date: 06/26/97 11:53:00 AMSubject: LBJ LibraryI just spoke with Tina Houston. She said that the only remaining postponement issues at her end are the Mildred Stegall files, which are still awaiting FBI concurrence for closure, and the Walter Jenkins shorthand notes, which are being transcribed. Apparently some of the Jenkins notes were extremely difficult to read, but thus far those which have been transcribed have had no postponements. She expects to have closure on the Stegall files by July 11th, before she goes out of town. The other documents that we identified as assassination records have been sent to NARA and will require referrals. I have left a message with Martha Murphy, in Steve Tilley's absence, to get the status on the rest of the LBJ records and confirm that they have been received.
