**Subject:** Two Military "Yeller" Issues  
#1: U.S. Air Force OSI Manual (on the DGI) that is part of the IRR file on Alfredo Mirabal Diaz--RIF # 194-10013-10444-- Air Force says "don't release;" CIA will review this document after shut-down if we take no action; DIA had no objections; FBI says "too hard to determine their equities." Staff recommendation: declare "NBR"--release in 2017. The remainder of the Diaz file will be substantially released.#2: 4 CIA documents from the Army's IRR "CI" file on Clemard Joseph Charles file should be declared "NBR" in order to be consistent with other (CIA) documents on Charles declared to be "NBR" because they fell well outside the 1963 time period. The four proposed NBR documents, all CIA records, are dated as follows: 24 July 1968; 14 April 1966; May 1968; and 16 May 1968.
