**Subject:** REVISED Writeup on Two Military "Yellow" Issues  
#1: U.S. Air Force OSI Manual (on the DGI) that is part of the IRR file on Alfredo Mirabal Diaz--RIF # 194-10013-10444-- Air Force says "they have no authority to release," and "punted" to the CIA, DIA, FBI and State; CIA and State will review this document after shut-down if we do not declare it NBR; DIA had no objections to release upon cursory review; FBI says "too hard to determine its equities in this document." Staff recommendation: declare "NBR"--thus allowing for release in full in 2017. The remainder of the Diaz file has been substantially released by the FBI and DIA; CIA has not yet reviewed its equities in the remainder of the file and will not do so until after sunset, IAW the provisions of the MOU.#2: 4 CIA documents from the Army's IRR "CI" file on Clemard Joseph Charles file should be declared "NBR" in order to be consistent with other (CIA) documents on Charles declared to be "NBR" because they fell well outside the 1963 time period. The four proposed NBR documents, all CIA records, are dated as follows: 24 July 1968; 14 April 1966; May 1968; and 16 May 1968.
