**Subject:** wrapup memo

**Body:** attached is a memo that started off as a j-track project. At Michelle's request for a memo on Mexico City for her notebook, I finished the memo because essentially it serves the same purpose. It's probably the last thing you want to read about now, but it's probably best that it go into the file. Regarding the IG memo that I hope to have for the Board meeting, Barry promised to have it for me today. I will get that to you as soon as I can, but if it doesn't happen today, how can we work it into the meeting for tomorrow?
