To: Jeremy Gunn/ARRBcc: Christopher Barger/ARRB Date: 04/11/95 06:04:37 PMSubject: Points of contact at DoDA question that has ocured to Dennis and I as we try and sort through Gene's work is this: Has the DoD, either in Secretary Perry's office or elsewhere in the Dept. of the Navy, established a "contact person" for records review, in the fashion of Steve Tilley at the Archives or Barry Harrelson at the Agency? If so, who is it? If not, are Dennis and I within our bounds to try and establish one? Where would you suggest? My feeling is that this person should be either in Secretary Dalton's office (Dept. of Navy) or with Admiral Boorda (Chief of Naval Operations). I believe that the SecDef's office would be too high up to begin a search. Your thoughts?
