Subject: Re: Establishing new data bases
I agree that something needs to be done about this. Let's put it on the agenda.

From: Mary McAuliffe/ARRB Date: 05/25/95 05:43:10 PM Subject: Establishing new data bases
The CIA team needs to establish two new data bases for its current (and projected) work: 1. One that tracks the documents we plan to present to the Board for its review (eventually this would include our recommendations for each document plus the Board's final decision). 2. One that tracks the specific items for we are requesting information from CIA
Since there is no dedicated PC yet in the SKIF, this means we have to do this all by hand, which of course not only makes the job much more difficult, but makes it impossible at this stage to include all the information we would like to track. I know David has mentioned getting a PC in there, but hasn't been able to yet. It's getting to be a necessity.
