OK, thanks. That makes sense. I may be back in contact later for the UPI address, etc.

I looked up World Television News in a couple of news directories and did not find it. I am assuming that WTN is the giant corporate name, while smaller companies that it owns like UPI still use their original names.

Gorden told me that World Television News in NYC should have the original Nix and Muchmore films because the HSCA returned the films to WTN at the end of its work. Groden said WTN aquired the films when it bought UPI. Do you have an address or any other informaion about WTN?
