Subject: Re: Cynthia Wegmann and Lyon Garrison files

You are very kind to offer to look through everything again, but since I've never taken a look at anything in the boxes (I didn't even know what they were or that they had arrived until you mentioned it the day you gave me my SCIF orientation) I better look through all of it. If I need a hand getting through everything, I'll give you a shout. thanks!

To be completely honest Anne, I did not read every piece of paper in each box. However, the name Hemard does not look familiar at all. Additionally, I do not recall seeing anything related to a case filed regarding the autopsy photos or reports. I will gladly look through for that case specifically if you would like. How soon would you need the information?

Did you tell me one time that you've been through the boxes of files donated by each of the above? If you have been, did you notice any information about a case that Jim Garrison filed in 1968 or 1969 in the DC Court of General Appeals concerning JFK's autopsy reports and photos? Also, in the same boxes, did you notice anything from the Garrison investigation about a Mr. Hemard and film he had that allegedly showed LHO and Clay Shaw together?
