**Subject:** Re: Consent Agenda Macro, Unassign Document from meeting macro  
From what I can tell it works great and it automatically changes the Status of the document to Status 4: Ready for Board Review when you unassign it from a meeting, no matter what the status was originally. David, I will wait until Tuesday (tomorrow) to use this macro on the real database to give you time to experiment with it if you want and in case you find any gliches that I missed. Thanks Chet!!

Subject: Consent Agenda Macro, Unassign Document from meeting macro  
I have finished the above Noelle, can you test them out for me in the template database before using in the real thing, They are under TOOLS RUN MACROS, you will notice I have renamed the macro for the staff use. Email me at CR9@UMAIL.UMD.EDU@INTERNET@WORLD.COM with any problems.
