Subject: Advanced Training

Suggestions for Advanced Computer Training classes:
1. Fire Walk: Teach your computer to walk on hot coals.
2. Circus Jump: There she goes, chaising a lion right through the hoop
3. Amtrack: Train Your Computer to Train Trains
4. Healthy Computers: Train your computer to eat good food so it doesn't get heartburn
To: Jeremy Gunn/ARRBcc: From: Valerie Trzaska-Sails/ARRBDate: 10/10/95 02:33:30 PMSubject: Re: Congratulations on New ResponsibilitiesThanks. I would love to train your computer, but you work so hard all day the poor girl needs a break sometimes. I would love to hear the other suggestions for training computers anytime also. To: Valerie Trzaska-Sails/ARRBcc: From: Jeremy Gunn/ARRB Date: 10/10/95 12:50:45 PMSubject: Congratulations on New ResponsibilitiesAs a part of your new responsibilities, I would like you to arrange to have a training class for my computer. It has been misbehaving. Sometimes it types only one "t" in the word "leter." Moreover, when I am not here, it just sits around doing nothing. If it were better trained, it could do my work while I am at lunch. I have some other suggestions for training computers and I will be happy to share them with you.Good luck, and happy training.
