Yes, let's discuss it.

Subject: BRILAB
I was hoping that we could talk about BRILAB and where we can/should go next on this matter. The last I recall, you dictated a memo after New Orleans, but I'm not sure if anything has happened since then. Perhaps as part of the resurrection of the Priorities Committee we could talk about BRILAB, as well as other important issues which must be pursued. Let me know what you think.
