Subject: A question: I have asked Mary if a trip to Sidney Kramer's bookstore would be good for locating intelligence-related books. She said that it a good idea, and that if I found anything, it might be a good idea to get a small budget (if the book(s) were not available at the Library of Congress).OK--but let's discuss it before you purchase any books. In my personal experience, Olsson's Metro Center has a much better intelligence collection than Sidney Kramer, although Kramer is much better for foreign policy and politics generally.also, can I take a look at the Richelson book, Foreign Intelligence Organizations,which you have checked out of the ARRB library? Delivered to your chair.Thanks.
