**Subject:** Re: Dallas Interviews  
Is there any reason not to believe Ms. Cunningham?  
**To:** Jeremy Gunn/ARRB

**Subject:** Dallas Interviews  
Kathy Cunningham told me following our meeting that Dr. Bob Grossman, a resident neurosurgeon, was literally "at the elbow" of Dr. Kemp Clark during the treatment of President Kennedy at Parkland. My own observation: Since he is reputed to be in the Dallas area, and has not had much attention paid to him, you may wish to interview him in December and get his observations first-hand. His training in neurosurgery, like Kemp Clark's, should make his observations/descriptions particularly accurate, and perhaps give them more weight than the statements of others.
