Subject: Re: leave accruals

Body: Thanks--good idea! I was about to ask you that myself...you are one step ahead of me. Thanks for the "pro-active" approach.A follow-up question...if the problem is with marrying the "retro" program with the "current" program...why can't they skip that and just make a "manual change" to that one data field? (I am ignorant of their software parameters, so I don't know if that is allowed or not.) Thanks again. A written letter or printout of the amount of sick-leave I have in their transferred, or "retro" category, would be reassuring.
