Subject: Re: Peggy Grafeld

I called her this morning and learned:(1) No, they have not been sent. She remembers they were working on a revision of one of them but she doesn't know where they are right now. She may not have seen all of them because ...(2) She is in a new position (three of them are rotating in the Director's job). She isn't sure who may have your memoranda at this point.(3) I asked if we should direct these to some other person now. She said no, it would be better not to try to bring that new person up to speed on this at this point.I told her I would fax and mail all of them to her again today (see your in box) rather than her having to try to find them.

Subject: Peggy Grafeld
Please call Peggy Grafeld and check to see if the cables that we recently faxed to her (on different occasions) have been sent. They are cables to Moscow, Minsk, Tokyo, London, and Paris.
