PMSubject: Tickle macro changes
Val here is the code that needs to be pasted into the Z101-Zxxx macros in the Archive database to make them not send mail on the weekend. @If(FORM = "MEET" & @Weekday(@Now) = 7; @Return(""); ""); @If(FORM = "MEET" & @Weekday(@Now) = 1; @Return(""); ""); They get inserted after the @setfield("MACRUN";@NOW) line
Take a look at Macro Z100 for an example. I think this will help on the Tickle overload. Good luck and please call me with any questions
