Subject: Re: JFK Assassination theory

Mr. Dillard:The Assassination Records Review Board was established and operates under the mandate to identify, secure, and release records related to the assassination of President John F. Kennedy. In order to find someone or some group with which you can discuss your mentioned area of interest, I would suggest you do a search on the internet with the key word "JFK". There are many discussion groups on the internet and you may be able to find a group that interests you.Thank you for writing to the Assassination Records Review Board.Sincerely,Eileen A. The Kennedy's resented him for many reasons and threatened to expose his warped sexuality. The insensed Hoover then brought about their deaths in an attempt to save his image and place in History as the greatest American, which he longed to be called.More fact: The powerful Lyndon Johnson was a very real friend of Hoover's, both public and privately. Some say he too had alterior motives...and the list goes on and back to Hoover. He could have arranged it in 1963.Can you tell me if/who investigated Hoover? His FBI didn't.Regards...JC Dillard
