**Subject:** Re: Computers & Interns

The nature of the problem is such that when I click on the "Musings" or "Where in the World" icons, I am prompted by the statement "You are not authorized to access this database" (or something along those lines). What is the exact nature of the access problem? I know you sent me an e-mail that said, "this has been done," but, for some reason, they still do not have full access. (Noelle tried to pull the databases up for Rob, but to no avail.) Can you check it out? Thanks. I think they should have access to some additional databases, since they are going to be here every day this summer. I have listed them below. I talked to Tracy and she said it would be okay. I cc:ed David, so that if he thinks it might be a problem, he can tell you. Thank you again.
