**Subject:** Re: Fwd: Judge Sues Over JFK Information: He wants CIA to answer questions on mystery man (fwd)  
Dear Mr. Leon:Thank you for your message. The Board has received thousands of leads regarding the potential existence of assassination records. We carefully review all of the information. The recent news article on Claude Barnes Capehart will be reviewed by the appropriate Board staff members.The Review Board has not dealt with any records related to this individual, to the best of my knowledge. As a matter of policy, the Board does not discuss specific communications with other agencies relative to specific records in which we may be interested. However, as you know, all records on which the Board votes are noticed in the Federal Register and we do mailings on every group of documents voted on by the Board. In addition, all of the records of the Assassination Records Review Board will become part of the JFK Collection.Again, thank you for your message and the article.
