**Subject:** Re: possible advisory language

Thanks, Joe! This is helpful. Unfortunately, we do not normally go into specifics about consent releases because the Board did not physically act on them. In this case the cr's are more interesting. Anyway, I will include the Milteer document (is there any meat (tofu) there?) thanks again for all of your help. To: Eileen Sullivan/ARRBcc: From: Joseph Freeman/ARRB Date: 09/04/96 12:35:18 PM Subject: possible advisory language Got your voice-mail (sorry I haven't answered sooner; to be honest, I don't always notice when I have voice-mail, and only discovered and listened to yours a few minutes ago). I don't think the HSCA OCR is particularly interesting or worth referencing. The Milteer (item 5 in my original E-mail) document, and the 15 Miami PD consent-release documents, are probably the most interesting in the batch. I would therefore recommend something along the lines of..."The Board opened six HSCA records in full, including a previously withheld record relating to Joseph Milteer. Also released were fifteen (15) HSCA records documenting dealings the Miami Police Department had with Jim Garrison's New Orleans investigation of the assassination in the late 1960's."
