**Subject:** Re: toner

Well, I am the one to blame then. I saw Kevin put in toner last time, approximately a month and a half ago. I didn't bother checking if we had more toner or not. I was in the middle of a Federal Register Letter send out to agencies.

We order 4 at a time but that still does us no good if someone takes the last one without letting us know!

Can we please order 2 or three toner cartridges to have on hand?
