Subject: Re: powers/media
Thank you for letting me know I needed to clarify that info with Krichmar. I spoke with her and we are now on the same page. She has spoken with Bob Clark and she told me that he has Powers' number and has left a message for him.....Logistics: I have let the guards know about tomorrow and told them I will provide them with a copy of yesterday's media advisory. I also hope to give them an idea (roughly) of how many people we expect. I have spoken with Tracy on a few occasions about this and will talk with her again today about the public reading room set up (I'll set it up today.) Then, based on how things are going tomorrow a.m., we can access if I can stay in the public reading room for video distribution, or if I should stay at my desk on the phone. In that case, I am sure Christina can help with video distribution.
