**Subject:** Re: How are you?

First, thank you for your kind words (and for your thoughtful holiday card, I might add). I still very much miss working at the Review Board and hope all is well there. Second, re: interviews in AZ, I'd be very happy to conduct them, especially if you believe I should. At the same time, it is not self-effacing to say that to conduct them successfully I would need a refresher course on CIA issues as they relate to Oswald and Russia. I have my copy of Newman here in AZ, which will help, but I presume you/Michelle will need to brief me by phone as to what you're really looking for (Michelle had earlier offered to send me draft questions and go over them with me, for instance). Nor should you underestimate (see "Third" below) the quickness with which assassination-related knowledge submerges beneath the conscious mind once one is no longer working with it every day. In short, if it's worth your/Michelle's while to help prep me for the interviews, I'd be genuinely pleased to do them. But I would certainly understand if you thought it advisable to go another route. Third, McCombs. While I remember advocating that Time-Life be approached, re: McCombs and the reinvestigation of the assassination, I don't recall enough specifics to be able to answer your query very usefully. I put together a 7/29/96 (I believe this date is correct) summary memo of my trip to Martin, TN, and my review of the McCombs material. A copy of it (per your instruction) is at the front of the hollinger box (row 5A in the scif when I left) labeled "McCombs" containing the material I copied and brought back with me to DC from TN. There is probably also a copy in a McCombs file in the lower lefthand drawer of my old desk (if these files haven't since been moved). If I could review this memo, I could probably be more helpful. I'm sorry I don't have a copy here. If it's worth your while to have Kathy fax it here (602/955-5373) I could probably formulate a specific suggestion or two. Unfortunately, Chet did not enable me to access my old personal wordperfect files on the computer I have here in AZ, or I'd just download it myself. Good to hear from you.
