Dear Ms. Sullivan: The individual who calls himself "Alec Hidell" on the Weberman JFK assassination discussion group has been posting for a while now. He strikes me as a knowledgeable, level-headed person. If he says that he has an audiotape of the assassination, which would be vital evidence, it would be wise to make every effort to check it out. If it is a fraud, it would be unfortunate--but if it is authentic, it could answer a good many primary questions about the assassination. Martin Shackelford (primary e-mail still: mshack@juno.com)
