**Subject:** Re: Detaching documents

you should be able to. Detach things into the C:\office\wpwin\wpdocsdirectory with a new file name and that should do it.  
**To:** Chetcc: From: Joseph Freeman/ARRB Date: 01/24/97 11:53:55 AM  
**Subject:** Detaching documents  
I'm not sure whether you intended for me to be able to detach and read e-mailed documents (like the draft annual report Thom e-mailed earlier this week). Either way, I can't seem to do so. Of course, since I haven't done anything useful for the Review Board since I left, maybe it doesn't matter. Perhaps I have the capability to detach but am just not doing it right? If I'm not supposed to have it, let me know (at your convenience: this is non-urgent) and I'll stop trying. Many thanks; hope all is well with you!
