I thought you might be intersted in some of our tentative actions on some issues that you recently raised.1. We have requested (but not yet received) the Moore and Gochenaur testimony to the SSCI. We expect that these records will be found to be assassination records and ultimately will be released to the public.2. It is our understanding that Moore has denied Gochenaur's allegations. We anticipate that more information will be made available on Gochenaur's bona fides.3. Moore's report on his December meeting with Dr. Perry is in the SS Official Case File (which, because it was received in 1979, is not RIFed). We are attempting to determine whether there may be other reports, but as of yet have had no success.We appreciate your interest and help.
