Subject: Re: HSCA Draft Final Report

I located your memo on the same shelf as the Draft Final Report and offered it to Tom. He has not responded yet. To your credit, you had at least remembered to sign out the report and place a withdrawal slip in the box (dated early 1996). Take care.

Mea Culpa on dropping the ball on this one months ago -- I should have put the draft report back in the box, that's for sure! We're all lucky we have Brian to clean up after me!
As I mentioned to Brian on the phone yesterday, I think I wrote a memo (re: differences between draft and final published report) a long while back. I can't search for it because I don't have access to my old WordPerfect files here in Phoenix, but it should be retrieveable in D.C. (easy for me to say, I know).
FYI.

Brian: Thank you for your response. I hope that we can move the draft final report, since there has been interest in the research community and maybe some press interest, if there are any interesting differences between it and the final report.
Thanks.
Tom

Subject: HSCA Draft Final Report
I have located the HSCA Draft Final Report. Unfortunately, there is no indication that it was ever referred to the CIA or any other agency. The report (the original document) was sitting out of the Security Classified boxes on a shelf in aisle 5-A of the SCIF. Although it was marked for CIA referral, it was not copied and delivered to the CIA in October because Cathy only copied for referral those documents that were tabbed and in one of the relevant boxes. After conferring with Bob, I referred the report to the CIA yesterday and expect it back relatively shortly. I also alerted Kevin to the situation and asked him to review the report for possible FBI equities and referral. If I can be of further assistance, please let me know.
