Joan has it. You should ask her where to find it, because she will be out from 9:45 a.m. until the end of the day tomorrow. On another note -- I think it is now officially too hot to run home from work. Boo. You picked a good time to be injured! We'll resume our runs home in the fall (unless we get a day in the under-70 degree range, and then we'll reconsider. :- ) )

Body: Could I take a look at that file some time tomorrow? I will be in around 1:00. If you expect to be out, could you leave directions as to where I could locate it? Thank you.
