To: ALLcc: From: Tracy Shycoff/ARRBDate: 07/25/97 11:24:52 AMSubject: WarningThe SCIF door is not operating correctly. The door has been kicked by someone and bent (including the frame) and therefore creates problems for those that try to lock and verify it at night. This is not the first time something in this office has been broken or damaged by hostile, aggressive behavior. Please use this note as a warning to ALL STAFF that this type of behavior will not be tolerated. We have had to call service to fix xerox machines and computers that have been slammed by frustrated staff, have holes in walls caused by staff hitting or throwing something at them in anger, and now a door that is damaged. Obviously nobody needs to be told that this is not appropriate behavior for the workplace (or for adults in general). The staff time and money that needs to be invested by the ARRB because of this behavior is not insignificant. Please keep your tempers in check when in the office and if you see someone damaging ARRB/federal government property report it to me or David immediately.
