Subject: Re: NSA: FYI

What is the status of the documents we requested at our meeting that we were expecting NSA to deliver to us? I had thought we do have disks for the documents. Am I wrong?

1. I called Martha Murphy at NARA to tell her the documents would be not be coming tomorrow, instead, they would be delivered sometime in the near future, possibly next week. She did not ask me about the reason for the delay. 2. Ms. Murphy asked if we had the data disks (containing RIF information) for these documents. I told here that I am not personally aware of any RIF disks in our possession, and neither is Kevin. 3. Since so many people at the NSA who work with us are not available until next week, I will wait until Monday to inform them that the date for delivery to NARA has changed. I had left a message with them that we were planning to deliver them tomorrow (7 Aug 97)
