Subject: Re: James Tague
 I have spoke w/ Tague twice back in late 1993 or so & he provided the attached statements which basically say he made entries in a journal on 11.22.1963 at appx 6-7 p.m. detailing his being hit by a bullet ricochet during the JFK assassination...Tague is fearful of the Government & is hesitant to even provide a copy of his journal to the Collection...I asked Jeremy what he wants to do w/Tague to hopefully get it into the Collection & he suggested having Doug contact him as a "fresh voice" & he'll know more intimate details of the witnesses in case Tague asks a lot of questions...Dave :)CALL REPORTIssue # 9Document's Author: Dave Montague/ARRB Date Created: 09/25/95 The Players

 Who called whom?Who initiated the call?Description of the Call
 Date:10/03/95Subject:2nd Interview with James Thomas TagueSummary of the Call:Spoke with Tague today & he confirmed that he has a spiral notebook in his possession which contains his total account of what happened to him on the day of the assassination. He said that he sat down that evening around 6pm & detailed all of his activities that day as well as his injury from the ricocheted round. He finished his accounting of these events around 7pm. I believe he told me about the notebook because he does not view it as an extremely important record, rather it is his only record left.He gave an interview to the FBI and his name was never mentioned in any reports or articles, which he feels is ridiculous. He was returning from the Indianapolis 500 in May of 1964 & decided to take some 16mm film of Dealey Plaza. He believes that the FBI had him under surveillance. When he testified before the WC, they asked him why he was in Dealey Plaza taking pictures & he feels they could only know that if they were watching him. Approximately 4 years after that, his house was ransacked & the 16mm film disappeared. He now has distrust for the government finding the truth.He will consider giving the notebook to the Collection, but "does not feel this is the right time". He will not agree at present, to us copying it or him copying it for us. He wants to "maintain total control over the Record
