Subject: Re: macro update

Thanks for the macro run. It worked wonders. I had counted 40 HSCA consent releases from the September meeting. Lo and behold, the total number of documents no longer on the RecEquity view from July to September is 157. It went from 1823 to 1666. I had prepared 4 more greens for David's review. He did not do them at the last Board meeting. Since they required a vote, I thought they would be postponed until the next meeting. Looks like they are gone! Macros are great!

Here is a little reminder to run the macro that updates the HSCA database. The view that should melt down is the Equity-Rec Series view.
