**Subject:** Re: FBI Review

Ron --FYI -- both Debbie Beatty and Barbara Arnold have mentioned to me that they have Edward Becker materials for you to look through, so if you could check with both of them while you are at the Bureau today, that would be great. Thanks.LauraTo: Jeremy Gunn/ARRB, Tom Samoluk/ARRBcc: Laura Denk/ARRB, Kevin Tiernan/ARRB From: Ron Haron/ARRBDate: 09/29/97 09:49:01 AMSubject: FBI ReviewUnless you need me here, this is to let you know that I plan to go over to the FBI this afternoon to do the following: --Review Tolson's Chron for assassination records-- Inspect the FBI file on Jimmy Hoffa (File No. 63-5327 ). As I understand it, this is the main FBI file on Hoffa from which selected documents are being processed as assassination records. I am not certain what the selection process has been for individual documents, but I can discuss this with the FBI and Laura.--Inspect the assassination records that have been compiled from Hoover's O&C files, and which should be ready to fo to the JFK Collection (I believe there is only one claimed postponement from this set of materials).--Review a file on Ed BeckerRon
